

## **Crane Inspection & Certification Bureau Unveils New Website, Extending Commitment to Safety Training**

*Newly launched [cicb.com](http://cicb.com) features a modern and responsive design for a richer digital experience, indicative of the high quality of CICB's crane and rigging safety training/certification programs and inspections.*

Orlando, FL & Houston, TX ([PRWEB](http://PRWEB)) June 04, 2015 -- As a leading provider of crane and rigging safety training/certifications and third-party inspections, [Crane Inspection & Certification Bureau \(CICB\)](http://Crane Inspection & Certification Bureau (CICB)) unveiled their next-generation website, featuring a modern, fully-responsive mobile-friendly design providing access and utility for all of its clients.

The redesigned website reflects CICB's expertise and continued commitment to crane and rigging safety training and certification programs along with their unparalleled third-party inspection services.

"Regardless whether our customers are using a smartphone technology in the field, a tablet, or viewing a large monitor on their desktop," says Camille Singletary, Marketing Manager of CICB, "the responsive design of the website quickly and clearly conveys the breadth and depth of our training and inspection services for the crane and materials handling industry."

CICB, headquartered in Orlando FL since 1969, with a major additional training facility in Houston TX, offers scheduled training and certification programs, customized on-site training and equipment inspections at your facility or anywhere in the world.

The goal of CICB's crane and rigging training programs and third-party inspection services is to:

- Reduce Accidents and Injuries
- Increase Worker Skills, Productivity, and Morale
- Achieve Regulatory, Best Practice, and Corporate Compliance
- Lower Maintenance Costs
- Increase the Reliability and Life of the Equipment

CICB's professionally trained instructors and subject matter experts are not only NCCCO Certified as Mobile, Overhead & Articulating Cranes Operators, but they are also CCO Certified Riggers, Signalpersons, Lift Directors and Crane Inspectors. All of CICB's trainers are NCCCO accredited Practical Examiners; they have distinguished themselves by earning the prestigious Top Trainer Award in 2014, 2013, 2012, 2011 and 2009.
